## ABOUT US

Resolute Forest Products is a global leader in the forest products industry with a diverse range of products, including market pulp, tissue, wood products and papers, which are marketed in over 60 countries. The company owns or operates some 40 facilities, as well as power generation assets, in the United States and Canada. Resolute has third-party certified 100% of its managed woodlands to internationally recognized sustainable forest management standards.

**R**esolute Forest Products owns two sawmill operations in Arkansas – the one in Glenwood and the other in El Dorado. Resolute acquired both sites in February 2020, marking the company’s entry into the wood products industry in the United States. Resolute has extensive industry experience, operating nearly 20 wood products facilities in Canada.

## Glenwood Mill

The Glenwood sawmill produces Southern Yellow Pine dimensional lumber as well as radius edge decking used by the construction industry in the South Central United States. The mill is well positioned for growth, in proximity to some of the markets with the highest population growth in the country.

## El Dorado Mill

Resolute acquired the El Dorado sawmill in an idled state and restarted it in December 2020. The facility, which is undergoing significant capital improvements, has 150 employees and the capacity to produce up to 180 million board feet per year of dimensional lumber and specialty products.

## Supporting Sustainability

Since March 2022, Resolute’s Arkansas operations have sourced wood fiber and maintained chain-of-custody and controlled wood certificates under the standards of the Sustainable Forestry Initiative® (SFI®), Programme for the Endorsement of Forest Certification (PEFC) and Forest Stewardship Council® (FSC®). Third-party certification provides the assurance that fiber-tracking systems are in place to identify the source of fiber or wood.
