Consult your Resolute sales representative for more information about the specific chain of custody or fiber sourcing claims that may be available for these products.

Ecopaque Offset is a superbrite uncoated mechanical offset that is eco-conscious and economical. Ideal for book publishing, direct mail, financial printing, inserts, instruction manuals, workbooks or any other commercial print job that traditionally uses uncoated freesheet. Because Ecopaque features high opacity and bulk, it can be used as an economical substitute for uncoated freesheet without sacrificing look and feel. Ecopaque uses 50% less wood fiber than uncoated freesheet. Ecopaque is also qualified on many high speed inkjet presses.
